

Inglewood Street Reconstruction

On the _____ of _____, 2016 the
"Reconstruction" of your street from
_____ to _____ will begin.

Please expect lane and/or total street closures and please do not park in the street.

The reconstruction of your street will take two to three weeks to complete. The existing asphalt will be removed and the underlying base material will be mixed with cement and compacted. After the base/cement material has been placed, a new asphalt surface will be laid.

PLEASE DO NOT DRIVE AROUND BARRICADES OR OUT OF YOUR DRIVEWAY WITHOUT FIRST TALKING TO ONE OF OUR CREW MEMBERS DURING CONSTRUCTION HOURS.

We will make every effort for you to get in and out of your driveway whenever possible, but please understand that there will be short times when the total street will be closed.

Vehicles observed disobeying traffic control signs and/or barricades will be ticketed and responsible for repairs to the damaged material.

During the day when the reconstruction is underway, please note the following:

- 1) Construction may start any time between 7:00 am and 5:30 pm.
- 2) Please move all parked vehicles and debris from the street.
- 3) Vehicles parked on the street may be towed.
- 4) Please turn off your sprinklers during construction. Runoff irrigation water will damage and delay the construction process.

With your cooperation, it will be possible to complete this work quickly and with minimum inconvenience.

THANK YOU FOR YOUR PATIENCE WHILE WE BUILD YOUR NEW STREET!

PLEASE DRIVE CAREFULLY
