X. ADJOURN

February 16, 2018

Jeremy Allen Director of Community Development 298 W. Washington Stephenville, TX 76401

Dear Mr. Allen,

I am the current President of Erath County Habitat for Humanity and would like to make a request on behalf of the organization. ECHH has been building homes for low income families in Erath County since 1997 in order to improve the quality of life for the partner families who work the required "sweat equity" hours on the build and then pay for their home with an interest free loan, which allows low income families who would not otherwise be able to enjoy home ownership.

The organization recently purchased a lot located at 355 W. Walnut Street, Stephenville, TX and are working to start the next home for the next Habitat partner family. The lot we purchased has a very run down mobile home that we will be removing in order to build the home. We have attempted to donate the mobile home to someone who could remove it from the lot but have been unable to find anyone interested in the offer.

We are asking the city to waive or reduce the city landfill fees that ECHH will incur when the mobile home is removed. Additionally, we are asking the city to waive or reduce the permit costs for the home that we will build on the property. These savings will be passed on to the partner family and allow ECHH to keep their mortgage as low as possible.

We appreciate your consideration of our requests. If you have any questions please let me know.

Sincerely,

Leri Hunford

Lori Hurford ECHH President

City Council Work Session **STAFF REPORT**

SUBJECT:Amendment to the City of Stephenville Code of Ordinance Chapter 35: Municipal
RecordsMEETING:City Council Work Session - 20 Mar 2018DEPARTMENT:AdministrationSTAFF CONTACT:Staci King

BACKGROUND:

In recent years, cities across the state have experienced increases in the number of requests made under the Texas Public Information Act (Texas Government Code Chapter 552); the City of Stephenville is no exception to this trend. The Stephenville Police Department has experienced a 20% increase in public information requests; the City Secretary's office has received three times as many requests this calendar year as it did in 2016. Of the 29 requests received in my office this calendar year, 22 were from a a single requestor. Currently, the city is only allowed to charge for requests that result in 50 or more pages of responsive documents. In instances where the city receives multiple requests that result in fewer than 50 pages from the same requestor, large amounts of employee time is used, but the city is unable to recoup the personnel time spent on these requests. Under Section 552.275, the city is allowed to adopt an ordinance that provides an avenue to remedy that situation by setting a time limit for repeat requestors.

Below is an excerpt from the Texas Attorney General's Public Information Handbook 2018:

Section 552.275 authorizes a governmental body to establish a reasonable limit, not less than 15 hours for a one month period or 36 hours in a 12 month period, on the amount of time that personnel are required to spend producing public information for inspection or copies to a requestor, without recovering the costs attributable to the personnel time related to that requestor.2 If a governmental body chooses to establish a time limit under this section, a requestor will be required to compensate the governmental body for the costs incurred in satisfying subsequent requests once the time limit has been reached.

On establishing the time limit, a governmental body must make it clear to all requestors that the limit applies to all requestors equally. A governmental body that avails itself of section 552.275 must provide a requestor with a statement detailing the time spent in complying with the instant request and the cumulative amount of time the requestor has accrued towards the established limit. If a requestor meets or exceeds the established limit, the governmental body may assess charges for labor, overhead, and material for all subsequent requests.

As the Records Management Officer, I respectfully recommend that council amend Chapter 35 *Records Management* to adopt a monthly and yearly time limit at 15 and 36 hours, respectively.

Sec. 552.275. REQUESTS THAT REQUIRE LARGE AMOUNTS OF EMPLOYEE OR PERSONNEL TIME. (a) A governmental body may establish reasonable monthly and yearly limits on the amount of time that personnel of the governmental body are required to spend producing public information for inspection or duplication by a requestor, or providing copies of public information to a requestor, without recovering its costs attributable to that personnel time.

(a-1) For purposes of this section, all county officials who have designated the same officer for public information may calculate the amount of time that personnel are required to spend collectively for purposes of the monthly or yearly limit.

(b) A yearly time limit established under Subsection (a) may not be less than 36 hours for a requestor during the 12-month period that corresponds to the fiscal year of the governmental body. A monthly time limit established under Subsection (a) may not be less than 15 hours for a requestor for a one-month period.

(c) In determining whether a time limit established under Subsection (a) applies, any time spent complying with a request for public information submitted in the name of a minor, as defined by Section <u>101.003</u>(a), Family Code, is to be included in the calculation of the cumulative amount of time spent complying with a request for public information by a parent, guardian, or other person who has control of the minor under a court order and with whom the minor resides, unless that parent, guardian, or other person establishes that another person submitted that request in the name of the minor.

(d) If a governmental body establishes a time limit under Subsection (a), each time the governmental body complies with a request for public information, the governmental body shall provide the requestor with a written statement of the amount of personnel time spent complying with that request and the cumulative amount of time spent complying with requests for public information from that requestor during the applicable monthly or yearly period. The amount of time spent preparing the written statement may not be included in the amount of time included in the statement provided to the requestor under this subsection.

(e) Subject to Subsection (e-1), if in connection with a request for public information, the cumulative amount of personnel time spent complying with requests for public information from the same requestor equals or exceeds the limit established by the governmental body under Subsection (a), the governmental body shall provide the requestor with a written estimate of the total cost, including materials, personnel time, and overhead expenses, necessary to comply with the request. The written estimate must be provided to the requestor on or before the 10th day after the date on which the public information was requested. The amount of this charge relating to the cost of locating, compiling, and producing the public information shall be established by rules prescribed by the attorney general under Sections <u>552.262(a)</u> and (b).

(e-1) This subsection applies only to a request made by a requestor who has made a previous request to a governmental body that has not been withdrawn, for which the governmental body has

Page 7 of 9

located and compiled documents in response, and for which the governmental body has issued a statement under Subsection (e) that remains unpaid on the date the requestor submits the new request. A governmental body is not required to locate, compile, produce, or provide copies of documents or prepare a statement under Subsection (e) in response to a new request described by this subsection until the date the requestor pays each unpaid statement issued under Subsection (e) in connection with a previous request or withdraws the previous request to which the statement applies.

(f) If the governmental body determines that additional time is required to prepare the written estimate under Subsection (e) and provides the requestor with a written statement of that determination, the governmental body must provide the written statement under that subsection as soon as practicable, but on or before the 10th day after the date the governmental body provided the statement under this subsection.

City Council Work Session

STAFF REPORT

SUBJECT:Requests For Qualifications Rankings
Various Stormwater Improvement Projects – Spring Bouquet Neighborhood; Utility
and Pavement Improvement ProjectsMEETING:City Council Work Session - 20 Mar 2018
Public Works

STAFF CONTACT: Nick Williams

RECOMMENDATION:

Direct staff to negotiate and provide master professional service agreements with the top three (3) ranked firms in both categories identified in the twenty-four (24) total responses received following Requests for Qualifications (RFQs) for Various Stormwater Improvement Projects and Utility and Pavement Improvement Projects.

BACKGROUND:

Staff was contacted by multiple residents in the Spring Bouquet neighborhood following the heavy summer rains of 2017. Residents reported flooding of the street as well as homes along Spring Bouquet Street near Midnight Shadow. Staff investigated the surface drainage complaints as well as met on-site and corresponded with neighborhood residents. It remains clear from the discussions and site visits with residents of Spring Bouquet that residential properties were flooded during 2017 summer storm events.

The issue was discussed at a Public Works Committee meeting on October 26, 2017 and a formal professional services proposal was presented to perform basic hydraulic modeling of the area in order to identify a right-sized stormwater solutions project to address the problem in the most cost effective manner.

Group discussion inquired if local engineering firms had been given an opportunity to bid on the project. It was noted that, under the Professional Services Procurement Act, a governmental entity may not select a provider of professional services or award a contract for the services on the basis of competitive bids, but must make the selection and award based on the basis of demonstrated competence and qualifications. Following discussion, staff was directed to contact other engineering firms, including local firms, to solicit proposals to perform the work.

RESULTS:

Request For Qualifications documents were prepared, advertised, posted on the city's website and sent to multiple firms, to which a large response was received by fourteen (14) separate, individual engineering firms requesting to perform, not only work for the Spring Bouquet project, but for various stormwater improvement projects for the City of Stephenville.

Additional responses were received by ten (10) separate, individual engineering firms requesting to be the firm of choice for utility and pavement projects for the City of Stephenville.

Some firms responded to only one RFQ, while some responded to both to make up the total twenty-four (24) responses.

Page 1 of 3

The responses were reviewed and ranked based on consistent criteria identified in the RFQ. The review committee ranked each proposal separately and averaged the results to compile impartial rankings. A copy of the rating sheet summary is attached to this report.

DISCUSSION:

The recommendation to negotiate and provide master professional service agreements with the top three (3) ranked firms for various stormwater improvement projects and for utility and pavement improvement projects is intended to provide the flexibility to work with pre-qualified engineering firms on projects which will reduce the time necessary to identify qualified engineering firms, solicit proposals and negotiate agreement terms for individual projects.

FISCAL IMPACT SUMMARY:

None.

Master professional service agreements and by extension, any individual, project specific agreements and any related dollar amounts must be approved by council action prior to performing any work in accordance with the city's existing procurement policies.

ALTERNATIVES:

ALTERNATIVES:

The following alternatives are provided for consideration:

- 1. Do not recommend master service agreements with multiple firms as presented;
- 2. Select a single firm to provide services; or
- 3. Recommend different firms.

ADVANTAGES:

Directing staff to negotiate and provide master professional service agreements provides time savings, options and additional flexibility while not obligating the council to use any particular firm for any particular project. A service agreement must be approved by council action prior to performing any work.

DISADVANTAGES:

There are no known disadvantages to directing staff to negotiate master professional service agreements with the highest ranked firms for review by the committee and council. A service agreement must be approved by council action prior to performing any work.

City Council Work Session
STAFF REPORT

SUBJECT:Requests for Qualifications Rankings - 750,000 Gallon Garfield Ground Storage Tank
Rehabilitation ProjectMEETING:City Council Work Session - 20 Mar 2018DEPARTMENT:Public WorksSTAFF CONTACT:Nick Williams

RECOMMENDATION:

Direct staff to negotiate a professional services proposal with Tank Industry Consultants, Inc. based on the rankings of the four (4) total responses received following an RFQ for the 750,000 Gallon Garfield Ground Storage Tank Rehabilitation Project.

BACKGROUND:

In February of 2015, Tank Industry Consultants, Inc. (TIC) performed a thorough examination of the interior, exterior, and foundation of the 750,000 Gallon Garfield Ground Storage Tank.

Based upon the findings in the evaluation report, posted on the city's website, rehabilitation of the Garfield Ground Storage Tank has been recommended each budget cycle since 2015.

RESULTS:

Request For Qualifications documents were prepared and advertised to which four (4) separate, individual engineering firms requesting to perform the tank rehabilitation work for the City of Stephenville. Tank Industry Consultants was the highest ranked firm largely due to the firm's practice being based solely on storage tanks, the number of tank projects competed each year (500-600 annually), the in-house expertise as well experience with projects requiring lead abatement as will be necessary for the Garfield Ground Storage Rehabilitation project. The firm also performed satisfactorily on the Garfield Elevated Tower Rehabilitation Project in 2015. A copy of the rating sheet summary is attached to this report.

FISCAL IMPACT SUMMARY:

Fiscal Year Budget 2017-2018 allocated \$300,000 of the estimated \$590,000 anticipated to be necessary for the rehabilitation of the Garfield Ground Storage Tank with the intent to spread the cost over two fiscal years and fund the remaining portion during the FY 2018-2019 budget year.

Recommending entering into an agreement with Tank Industry Consultants, Inc. will prompt staff to negotiate a proposal which will be brought back to the Public Works Committee for review and direction to execute the work identified in the FY 2017-2018 approved budget.

If, for any reason, an agreement cannot be reached with the highest ranked, most qualified firm, negotiations would cease and would begin with the next most qualified firm.

Any proposal will be discussed with the committee prior to presentation to council to consider approval.

ALTERNATIVES:

The following alternatives are provided for consideration:

Page 1 of 3

- 1. Do not recommend negotiating a proposal with the highest ranked firm as presented; or
- 2. Recommend a different firm.

ADVANTAGES:

Directing staff to negotiate a proposal with the highest ranked firm provides the best probability for a project design to be completed within budget and time constraints while not obligating the city to enter into an agreement. A service agreement must be approved by council action prior to performing any work.

DISADVANTAGES:

There are no known disadvantages to directing staff to negotiate a proposal with the highest ranked firm for review by the committee and council.
