Why you should sponsor:

Addie is a vibrant, full of energy four year old who has cerebral palsy! She loves to do anything and everything that any other kid does, including play at playgrounds! She has four siblings that range from 1 to 10, so a playground that is adapted where everyone plays is a huge deal for our family!

Addie uses a power wheelchair and a walker, and both require a flat surface and ramps for access for her to join in with others! Inclusive playgrounds allow for kids like, Addie, and caregivers to join beside them on the fun! Access for all abilities is equally important for those with physical challenges and for those without! When kids are around others that are not like them starting at a young age, it opens their mind up to grow with a heart for all and break down the walls of seclusion. We hope to see this playground built for all of those in our community with wheels and everyone without! let us bring all those in our community with wheels and everyone without!
